EVOLVE iRANGE G35

EVOLVE iRANGE G35

Deter, Deactivate, Detect

Q

In order to remain competitive, forward thinking retailers are putting store performance under close scrutiny and are increasing efforts with implementing visitor counting technology. Store visitor data is considered one of the most important sources of data available to the retail industry. How can I integrate this into my EAS systems without affecting my store design?

A

Part of the EVOLVE iRange family, the EVOLVE iRange G35 will fit perfectly into any environment, without impacting your customers. The Plexiglas design and integrated LEDs - which can be set to permanent on or when the antenna is alarmed - is perfect for those retailers who want top design without sacrificing performance. The optional integrated people counter units enable retailers to discreetly and accurately capture visitor numbers, which can then be automatically uploaded to a reporting service of choice.

- ✓ **REMOTE CONNECTIVITY**
seamless management reporting
- ✓ **EXCELLENT PERFORMANCE**
enhanced detection capabilities
- ✓ **OPTIONAL INTEGRATED VISITOR COUNTING**
counting at point of manufacture*
- ✓ **CUSTOMIZED BASE COVERS**
speak to Checkpoint regarding available colors*
- ✓ **JAMMER DETECTION**
alerts stores to the use of EAS Jammers
- ✓ **INTEGRATED LEDS**
in red, blue or green

Dimensions

HEIGHT: 1.514 m / 4' 11"
WIDTH: 0.27 m / 0' 10"
DEPTH: 0.11 m / 0' 04"

Frequency

8.2 MHz EU
7.2 - 9.5 MHz NA

Aisle Width

Up to: 1.8 meters
